Course summary

This free course, Introducing multidisciplinary study at The Open University, provides an overview of the materials and resources there are to support you if you're studying or thinking about studying an Open qualification (Degree, and/or Masters) with The Open University. It provides useful background information to the qualifications and helps you navigate the different spaces that offer support and find where materials and resources are located. It will help you to plan your studies and future career as well as directing you to where you can find a community of other multidisciplinary learners who are also studying towards an Open qualification.

Learning outcomes

By completing this course, the learner should be able to:

- define multidisciplinary study
- identify Open qualifications
- find your way around useful resources to support you whilst studying on an Open qualification.

Completed study

The learner has completed the following:

Section 1

Welcome to your Open qualification

Section 2

Finding your way around

Section 3

Planning your studies

Section 4

Community and belonging

Section 5

Career development and planning for your future

Section 6
